

CONTRACT COLLECTION 2010

Poomlighting

by LUCENTE®

La collezione PoomLighting raccoglie oggetti che interpretano in modo differente le funzioni e le forme della luce con prodotti moderni, pratici che illuminano in modo semplice gli ambienti che ci circondano.

I prodotti si caratterizzano per le loro forme pure ed essenziali, da prodotti a basso consumo con un alto grado di protezione e dall'alta funzionalità e praticità nell'installazione.

PoomLighting is a lighting collection which offers diversified interpretations of light through contemporary design and practical lamps which illuminate interiors that surround.

The collection is a line of products characterised by the shapes pure and essential, by low energy consumption offering a high protection grade, features all encompassed in a product easy and practical to install and mount.

La collezione PoomLighting rassemble des objets qui interprètent de façon différente les fonctions et les formes de la lumière grâce à des produits modernes, pratiques qui éclairent de façon simple les milieux qui nous entourent.

La collection est une ligne de produit que se caractérise par ses formes pures et essentielles, par des produits à faible consommation, possédant un degré de protection élevé et praticité d'installation.

Die Kollektion PoomLighting vereinigt Objekte, die auf eine andere Weise die Lichtfunktionen und Formen mit modernen und praktischen Produkten interpretieren, die auf schlichte Art und Weise die Räume beleuchten.

Die Kollektion ist eine Linie dass charakterisiert sich durch seine reinen und nüchternen Formen, durch Produkte mit geringem Verbrauch, mit einem hohen Grad an Sicherheit und hoher Funktionalität und Handlichkeit bei der Installation.

La colección PoomLighting reúne los objetos para interpretar en maneras diferentes las funciones y las formas de la luz con productos modernos, cómodos que iluminan en modo simple los ambientes que nos rodean.

La colección es una línea de productos con diseño juvenil. La línea se caracteriza por sus formas puras y esenciales, por productos de bajo consumo con un alto grado de protección, alta funcionalidad y comodidad en la instalación.

Direttiva RAEE: Rifiuti di Apparecchiature Elettriche ed Elettroniche

Il 25 Luglio 2005 il Consiglio dei Ministri ha recepito con Decreto Legislativo no 151 la Direttiva Europea 2002/95/CE e 2002/96/CE relativa alla riduzione delle sostanze pericolose nelle apparecchiature elettriche ed elettroniche e dello smaltimento dei rifiuti da essi derivanti.

L'obiettivo è promuovere una logica di sviluppo sostenibile nel settore delle apparecchiature elettriche ed elettroniche, di cui gli apparecchi di illuminazione ne fanno parte, ai fini di un corretto trattamento dei prodotti a fine vita e ciò può attuarsi attraverso la piena conformità alla Direttiva RAEE.

Il Produttore, come definito dal Dlgs no 151, dovrà farsi carico dei costi di gestione che comprendono la raccolta, presso gli impianti di stoccaggio provvisorio e dello smaltimento dei rifiuti degli apparecchi di illuminazione immessi sul mercato dopo l'Agosto 2006.

Per adempiere a questi obblighi di legge LUCENTE S.r.l. ha deciso di avvalersi del supporto di:
Consorzio ECOLIGHT,
Via Gattamelata 34,
20149 Milano Tel 02 33600732.

Gli apparecchi di illuminazione saranno marcati in modo da identificare il Produttore e riportare il simbolo del cassonetto barrato, indicante la raccolta differenziata separata dal resto dei rifiuti urbani, inoltre saranno soggetti al contributo di smaltimento, differenziato per fascia di peso.

Gli utenti finali potranno consegnare i suddetti apparecchi senza costi aggiuntivi presso i punti di raccolta appositamente realizzati e comunicati dal Consorzio. I distributori sono obbligati ad assicurare al momento della fornitura di una nuova apparecchiatura, il ritiro gratuito, in ragione di uno

ad uno, della apparecchiatura usata. L'obbligo di informazione relativo al contributo dovrà essere mantenuto visibile in fattura, da parte del Produttore, fino al 13 febbraio 2011.

I prodotti elencati con il relativo peso netto alla fine del presente catalogo saranno soggetti al contributo di smaltimento a seconda della fascia di peso di appartenenza:

- fascia 1: apparecchi il cui peso è compreso tra 0 e 2 Kg
- fascia 2: apparecchi il cui peso è compreso tra 2 e 8 Kg
- fascia 3: apparecchi il cui peso è superiore a 8 Kg

Direttiva RoHS

Il Decreto Legislativo sopra menzionato incorpora anche la Direttiva 2002/95/CE - RoHS - Limiti d'uso di alcune sostanze pericolose - relativa alla riduzione delle sostanze pericolose nelle apparecchiature elettriche ed elettroniche.

A partire dal 1° Luglio 2006 tutte le nuove apparecchiature elettriche ed elettroniche immesse sul mercato non dovranno contenere o contenere in misura limitata sostanze quali:

- Piombo
- Mercurio
- Cadmio
- Cromo esavalente
- Bifenile polibromurati (PBB)
- Eteri difendi polibromurati (PBDE)

WEEE Directive: Waste Electrical and Electronic Equipment

On the 25th July 2005, the Council of Ministers incorporated the European Directive 2002/95/CE and 2002/96/CE – related to the reduction of hazardous substances in electronic and electrical equipment and their waste disposal - into Italian legislation with the Legislative Decree number 151. The objective is that of promoting a notion of sustainable development within the electronic and electrical equipment sector, to which lighting equipment belongs, with the aim of correctly treating the products once they have reached the end of their lives; this may be accomplished by fully complying with the WEEE Directive. The Manufacturer, as defined by the Legislative Decree number 151, will be responsible for the management costs which include collection from temporary storage facilities and the costs for waste disposal of the lighting Equipment. In order to fulfil these legal obligations LUCENTE S.r.l. have decided to call upon the support of the ECOLIGHT Consortium;
Consorzio ECOLIGHT,
Via Gattamelata 34,
20149 Milan Tel. +39 02 3360 0732.

The lighting equipment will be marked in such a way as to identify the Manufacturer and show the symbol of the crossed wheeled bin, which indicates a separate collection from the rest of the urban waste, the equipment will also be subject to a disposal contribution and will be distinguishable by its weight range.

The contribution will be determined prior to the law coming into force and will be made official by the ECOLIGHT Consortium. The end users will be able to deliver the above-mentioned equipment without any add-on costs to the authorised collection sites as notified by the Consortium. Distributors are obliged to ensure a free take-back service of the used equipment, at the time of the supply of a new unit, on a one-to-one basis.

The Manufacturer has a duty to supply and maintain information related to the amount of contribution and this must be shown on invoices until 13th February 2011.

The products listed in this catalogue will be marked with range symbols. Each symbol should be shown against its relevant range within the following table and each range will be subject to a different disposal contribution

- range 1: the equipment weight which is between 0 and 2 kg
- range 2: the equipment weight which is between 2 up to 8kg
- range 3: the equipment weight which is over 8kg

The RoHS Directive

The above-mentioned Legislative Decree has also implemented the RoHS 2002/95/CE Directive. The Restriction of the use of certain Hazardous Substances (RoHS) in electrical and electronic equipment.

As from 1st July 2006, all new electrical and electronic equipment put on the market must not contain, or contain limited quantities of, certain substance, namely:

- Lead
- Mercury
- Cadmium
- Hexavalent chromium
- Polybromide biphenyls (PBBs)
- Polybromide diphenyl ethers (PBDEs)
